Net developer with 5 years of experience, with knowledge in microservices, queues, unit testing, CI/CD and agile mindset; with participation in integration projects as a full stack developer, leading development teams, with personal focus on building good relationships stakeholders. Interests: Flutter and bass playing.

Summary of Qualifications

Skills

Last Project

DDD, MVC, Facade, Manager, Repository, Singleton, CQRS SQL Server, Oracle, Net 4, EF, LinQ, Generics, Swagger, REST, JWT, Hmac, MSTest, Moq, gRPC, Websphere MQ, Windows Server 2012, AWS S2, RDS, GCP: Logging, PubSub, Topic, Firestore Agile, Scrum, Git, TFS, Jenkins

Languages

C#, T-SQL, Visual Basic, Java, Dart, Javascript, Typescript, Python, Go

Frontend

Web: Net DevExpress, Angular, Material UI, Razor, Blazor, Sass Mobile: Android - Shared Prefs, Volley, Velocity, Swift - Core Data Multiplatform: Flutter, Net-Maui, SQLite, IMEI, Bluetooth, Sharing Geolocation, Google Play Publishing Desktop: Winform, WPF, C#, Xaml

Backend

Visual Basic 6, Net 6, NodeJS, Python, Go Prisma, TypeORM, Boto3, Pandas PostgreSQL, MongoDB, Dynamo, CockroachDB, MySQL Docker, Rancher, Nginx REST, SOAP, GraphQL

Testing

TDD, AAA, Xunit, MSTest, Moq

Cloud

Azure: IAM, Azure Service Bus, App Services, Storage, Repos, Pipelines, Boards Github: Actions, Projects AWS: IAM, EC2, RDS, Lambda, RabbitMQ, Api Gateway GCP: Firebase Store, Authentication, Cloud Messaging Digital Ocean: Instance, container and database management

LowCode

Genexus, Flutter Flow, UIPath

Languages

- Spanish (native speaker)
- English (B2 upper intermediate)

Career History

Globant, Lima, Peru   Jun. 2022 – Currently

.Net Developer

- Client: Walt Disney Parks and Resorts - Studio Fury, Florida, USA   Sep. 2022 – Sep. 2023

  Overview:

  I worked for the "Labor Services Platform" project which is a centralized integration platform for aggregating data from various upstream source systems responsible for payrolls for cast members. In my role, I co-led the technical aspects of the team, overseeing passes to production, monitoring, and troubleshooting issues. I also managed repositories, mentored the team, conducted onboarding training, handled stakeholder management, and made improvement proposals.

Technologies:

- REST API on Net Framework 4.6.1 - 4.8 using patterns as Repository, Manager, Facade, MVC.
- Maintenance of Windows services which depend on SAP jobs, send messages to Websphere MQ and migration of these services and publishing to GCP PubSub using gRPC.
- Unit testing with MSTest, NUnit, Moq and legacy test database.
- SQL Toolkit to improve our team delivery time, pre-Request scripts for Postman, and Windows Hmac Token Generator for QA support.
- Data mapping and analysis of current processes to support documentation.
- Maintenance of team's Postman collections and environments.

Grupo EBIM – IT Consultancy, Lima, Peru   Nov. 2021 – Jun. 2022

Technical Lead

- Client: Ajinomoto   Nov. 2021 – Jun. 2022

  Overview:

  I led the integration of the company's systems with its branches in Ecuador, Chile and Bolivia, as well as with their respective official billing systems.

  Technologies:

  - SQL Server, NetCore 2.1/3.1, Net 5/6, REST API and SOAP WCF services, Angular, Flutter, Firebase Auth – Notifications - Storage, Windows Server 2012, email and file management, Excel and PDF reporting, SAP integration.
  - Rest API with NestJS, Node, Express, Postgres, TypeORM - Prisma, JWT, Middleware, Authguard, cursors and Swagger documentation deployed on Amazon Web Services.

- Client: Avinka - Artisan   Dic. 2022 – Ene. 2023

  Overview:

  I led the construction, hosting, security and support of digital resources for the company's marketing campaign for the 2021 Christmas season.
  Technologies:

  - SQL Server, Node JS, Angular, Ubuntu Windows Server 2012, Digital Ocean. Lambda functions on AWS using Python, Boto3, PostgreSQL and Dynamo.

Ajinomoto Del Peru, Lima, Peru   Jan. 2020 – Oct. 2021

Full Stack Developer

Overview:

As an IT department assistant, I had to maintain the source code of existing applications for the Sales, Marketing and Human Resources departments, as well as lead teams of developers external to the company.
Sales application was an Android mobile app for salesforce who transferred their records to the company's SAP system. On the other hand, Human Resources application was responsible for recording and controlling worker evaluations.

Technologies:

- Sales app. SQL Server, SAP-PI, SAP-MM, SAP-SD, .Net 4 C#, Visual Basic 6, WCF and REST web services, Android Java, Volley, Velocity, Bluetooth, geolocation, IMEI, SQLite, Azure Devops.

- Web for Marketing department. SQL Server with SAP-PI integration, ASP Net - DevExpress.
- Web for Human Resources department. SQL Server with SAP-PI integration, ASP Net - DevExpress.

Sapet - CNPC (China National Petroleum Company), Talara, Peru   Aug. 2011 – Dic. 2014

Social Responsibility and Community Relations Assistant

Overview:

My objective was to mitigate social conflicts with the communities that inhabited the oil fields so that the company could expand its production by strengthening alliances with local leaders while complying with the country's socio-environmental legislation. To achieve this, I led social projects in health, education, environment and women's empowerment.

Additionally, I developed a plan focused on workers affiliated with the company's union so that they improve their perception of the company.

Education

- IST Cibertec, Lima, Peru   Mar. 2016 – Jul. 2020
  Technician, Computing and Informatics
